Reviews

Here is the finest ebook i have got read until now. It really is simplistic but excitement within the 50 percent in the book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

A GUIDE FOR THE CLINICAL EXAMINATION OF CHILDREN (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Guide for the Clinical Examination of Children This syllabus is designed to furnish a guide for the examination and analytic study of atypical individuals, children primarily. It is divided into five parts, the first presenting an outline for the record of the subject's history, the second an outline for the recording of his characteristics and abilities as manifested during the first month or so of his institution life, the third an outline for the physical examination, the fourth an outline for the post-mortem examination, and the fifth explicit directions for the mental examination. The mental examination is divided into two parts. The first an examination for the diagnosis, the second an intensive examination for the purpose of mental analysis. The examination for diagnosis is made by means of the Binet-Simon Measuring Scale of the Intelligence. The Binet Scale is the most highly perfected system of tests for diagnostic purposes. It is the only series of tests of any description which has been so adapted to an established classification as to give absolute uniformity of diagnosis in the grading of feeble minded children. The sub-groups of the feeble minded, the idiot, the imbecile, and the moron, are, without it, ill-defined and depend largely on the personal equation of the examiner, with it they depend absolutely upon three great planes of language development; the idiots are limited almost entirely to gesture, the imbeciles to spoken language, while the morons are capable of learning to read and write. The series is moreover the only series in which mental ability and age are correlated, and it thus gives us not only a fair standard for the examination...
