Shroff Publishers/Packt, 2010. Softcover. Book Condition: New. 17 x 22 cm. Build, administer, and customize an online store using Drupal with Ubercart Create a powerful e-shop using the award-winning CMS Drupal and the robust e-commerce module Ubercart Create and manage the product catalog and insert products in manual or batch mode Apply SEO (search engine optimization) to your e-shop and adopt turn-key internet marketing techniques Implement advanced techniques like cross-selling, product comparison, coupon codes, and segmented pricing A step-by-step tutorial with an example-oriented approach with many screenshots to guide you through the book seamlessly In Detail Ubercart is an exciting open source e-commerce package that fully integrates your online store with Drupal. Ubercart leverages the advantages of Drupal`s major core and contributed systems, providing your users with shopping cart functionality that integrates with other parts of your company or community web site. It can be used to sell shippable goods, downloadable products, recurring memberships, and event tickets, and to enable complex interactions with Drupal through various add-on contributions. This book guides you through the process of creating, administrating and marketing an online store, providing information and tips for raising your sales and your customer support. It will also show you how to maintain and add advanced capabilities to your company`s eShop. If you are a merchant wanting to invest your precious time to update the online presence of your company, or a web site designer wanting to expand your business and offer innovative solutions to your clients, this book has been written for you. You don`t need any programming experience to install and customize your electronic store. The procedure is well structured and easy and all we ask you to do is to follow some simple steps in order to complete some specific tasks in each chapter. The book will...
