Let s be honest, not many high schools teach their students about how to manage their finances in the real world. This lack of educating our young people often leads them to misusing credit and eventually finding themselves in a hole. By then, damage to their credit report has been done. But just like they didn t understand the looming dangers of over-extending their credit, they don t understand the flipside, namely, how to now repair their bad credit. This guide seeks to remedy this, offering those who are in a tight financial situation real solutions. Anyone who tells you that the process is easy is lying to you; it takes much longer to repair your credit than it does to damage it. Unless you suddenly strike it rich and are able to pay off your debts, you will have to remain dedicated to the repair process. Most people don t like to hear this, but the first step to repairing your credit is to take a realistic assessment of your situation. The good news is that I m here to help!.
