# More Efficient Bottom-Up Multipattern Matching in Trees (Classic Reprint)

Filesize: 2.12 MB

Reviews

It is really an remarkable book which i have ever go through. It can be writter in simple terms and not difficult to understand. I am just effortlessly can get a enjoyment of reading a composed pdf.
(Dr. Lily Wunsch II)

MORE EFFICIENT BOTTOM-UP MULTIPATTERN MATCHING IN TREES (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from More Efficient Bottom-Up Multipattern Matching in Trees Pattern matching in trees is fundamental to a variety of programming language systems. However, progress has been slow in satisfying a pressing need for general purpose pattern matching algorithms that are efficient in both time and space. We offer asymptotic improvements in both time and space to Chase s bottom-up algorithm for pattern preprocessing. A preliminary implementation of our algorithm runs ten times faster than Chase s implementation on the hardest problem instances. Our preprocessing algorithm has the advantage of being online with respect to pattern additions and deletions. It also adapts to favorable input instances, and on Hoffmann and O Donnell s class of Simple Patterns, it performs better than their special purpose algorithm tailored to this class. We show how to modify our algorithm using a new decomposition method to obtain a space/time tradeoff. Finally, we trade a log factor in time for a linear space bottom-up pattern matching algorithm that handles a wide subclass of Hoffmann and O Donnell s Simple Patterns. I. Introduction Pattern Matching in trees is fundamental to term rewriting systems [21], transformational programming systems [4, 15, 26, 30, 35], program editing and development systems [10,23, 32], code generator generators [14, 17, 19, 29], theorem provers [24], logic programming optimizers that attempt to replace unification and matching [27], and compilers for functional languages such as ML [34], and Haskell [22] that have equational function definitions. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work,...
